DETAILED ACTION

Receipt is acknowledged of an amendment, filed 4/2/02 as Paper No. 6, in which all of the pending claims (claims 1-28) were cancelled and replaced with new claims (claims 29-61). Claims 29-61 are pending in this application.

Any rejection of record in the previous office action not addressed in this action has been withdrawn.

Oath/Declaration

Applicants' are reminded that the oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c).

The response in Paper No. 6 indicates that a properly executed declaration will be forwarded to the Office as soon as it is received. Until a replacement declaration is received, the objection to the instant Declaration remains.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 40 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 40 refers to the *ilvC* gene as encoding ketopantoate reductase activity. There is no support in the specification as filed for *ilvC* encoding ketopantoate reductase activity. Therefore, this limitation is impermissible NEW MATTER.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35-36, 40 and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 35-36 are vague and indefinite in that there is no clear linkage between the structural gene and overexpression of the ketopantoate reductase activity. It would be remedial to amend the claim language to clearly indicate the relationship between the recited structural gene and overexpression of ketopantoate reductase activity.

Claim 40 is vague and indefinite in that it appears to indicate that the *ilvC* gene encodes a ketopantoate reductase activity. The prior art teaches that *ilvC* has isomeroreductase activity. It is unclear from reading the specification that the *ilvC* gene encodes a protein having ketopantoate reductase activity. It would be remedial to amend the claim language by deleting reference to the *ilvC* gene.

Claim 43 is vague and indefinite in that there is no clear and positive prior antecedent basis for the term "said gene".

Conclusion

Claims 29-34, 37-39, 41-42, 44-61 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
